About Us

Music for Life was founded in 2004 to address the importance of music education in the development of pre-school aged children. Study after study shows the undeniable positive correlation between music and higher brain function in mathematics, spatial and temporal reasoning, reading and vocabulary. Our curriculum specifically targets all aspects of these developmental keystones in pre-school aged children, while teaching students how to read music on the piano. We make it easy to get the developmental benefits of music by bringing Music for Life to you!
